

YOU ARE INVITED!

Please join the Los Angeles Department of Water and Power (LADWP) at a public workshop to share your views regarding Los Angeles' water supply as the City prepares it's

2010 Urban Water Management Plan

We would appreciate your thoughts and will be seeking your input on various topics and questions such as:

- What water resource options should LADWP pursue to meet future needs?
- What water management strategies should LADWP consider?
- How should LADWP manage water supplies during times of shortage?

About LADWP's Urban Water Management Plan (UWMP):

All large California urban water agencies prepare a UWMP and provide an update every five years. LADWP's UWMP offers a detailed discussion on the status of Los Angeles' imported water sources, and provides an update of future water supply and demand for the City. The Water Plan also discusses the management and development of water resources, as well as efforts relating to the efficient use water. Additional topics include existing and future water conservation measures, water recycling, and management of the City's groundwater basins.
